

Welcome to the City of Marietta. This pamphlet is designed to provide general information and assistance regarding business license requirements for businesses operating in the City of Marietta. The information presented herein is not all-inclusive and is not a substitute for the Marietta City Code. Any questions may be directed to the Marietta Business License Office.

General Business License Requirements

Every business located within the city shall apply for and obtain a business license prior to conducting business. This requirement shall apply to businesses whether profit or non-profit.

A Marietta mailing address does not always indicate the City of Marietta’s jurisdiction. Please call us for assistance in determining if the location is in the City of Marietta, in unincorporated Cobb County, or another jurisdiction.

Obtaining a Business License or Occupation Tax Certificate

To obtain your city license or occupation tax certificate, you must complete an application and return it to the Business License office with your payment. You may come to City Hall or you may call the business license office at (770) 794-5520 if you prefer to have an application mailed or faxed to you (or print from this Web Page).

Licenses for alcoholic beverages, pawnshops, taxi services and other privilege licenses must be approved by a review board at its regular meeting before licenses can be issued by the Business License Division. Call us at (770) 794-5520 for assistance and

more information regarding these types of licenses.

Business License Fees

Generally, business license fees or occupation taxes are based on projected gross revenue derived by the business from within the State of Georgia for the calendar year or the total number of employees operating from the Marietta location in the state of Georgia. The fee charged is the larger amount from the two fee schedules.

Penalty and Interest

A penalty shall be assessed on any business working in the city without first obtaining a city business license or occupation tax certificate. A penalty of 10% of the license fee or occupation tax shall be assessed per year plus 1.5% per month or portion thereof from the time the business began in the city until all fees are paid.

Duration of License or Occupation Tax Certificate

Generally, all licenses or occupation tax certificates are valid for the calendar year in which they are obtained.

Renewals

Business licenses or occupation tax certificates must be renewed on or by the due date. A renewal application will be sent to the current mailing address on file. If your business changes its mailing address, you are required to notify the business license office to ensure your receipt of important notices such as the renewal application. However, if your business does not receive this notice, you are required to renew by the due date even though a renewal application was not received. Penalty and

interest fees will be assessed on all delinquent renewals.

Your business shall be required to complete the renewal form in order for the business license office to update their records with current information.

Change of Location and/or Name Change

If your business has a change of location and/or name change but stays within the city limits of Marietta, you must notify the business license office in writing and submit a \$25 change of location and/or name change fee.

Change of Ownership, Business Closing

A change of ownership shall constitute the closing of one business and the beginning of a new business. You must notify the business license office if you sell your business so your license or occupation tax certificate can be inactivated. If you purchase an existing business, you must apply for a new business license or occupation tax certificate on or before the day the change of ownership occurs.

If you terminate a business in the City of Marietta, you must notify the business license office in writing so your license or occupation tax certificate can be inactivated.
